### **This Is "Our" Campaign**

The DAL-AFA campaign continues to work hard to reach out to all flight attendants so that everyone is informed and educated on the many issues that affect our careers at the "new" Delta. Not an easy endeavor, when our combined group totals close to 21,000 flight attendants situated around the globe!

We've received many emails from flight attendants who support representation... heartwarming stories of conversations with coworkers out on the line, reasons why they feel representation and a contract are so vital for our future and profession world-wide, and ideas for campaign communication pieces, including issues that need to be brought to the forefront immediately.

Flight attendants have overwhelmingly stated that they trust their peers and what they have to say. Sharing the facts with regard to the differences in compensation, work rules, and benefits at both carriers is crucial before we begin the election process...

What do you want to hear and see in future communication? This campaign belongs to all of us. If you have ideas, questions, issues that you would like to see addressed, or a story to share - please forward them by email to [communications@deltaafa.org](mailto:communications@deltaafa.org). We look forward to hearing from you!
