

# Pro Delta Air Lines

## Pro Contract

## Pro AFA !

Our campaign to join AFA-CWA is a positive effort...not a referendum against our airline or our executives. As Delta flight attendants, we are ready to take a seat at the table as professional working adults.

By joining AFA-CWA, we will have a legal and professional voice to;

- **Secure Seniority and Merger Protections** by negotiating legally enforceable contract language that protects our seniority and jobs in the event of a merger or acquisition. Also, by joining AFA, we will automatically receive the merger protections under the AFA-CWA Constitution & Bylaws
- **Restore our Pay and Working Conditions.** By joining AFA, we can best position ourselves for the restoration of the wages and working conditions we lost over the past several years. Represented groups, including our own Delta pilots, will move quickly at the bargaining table to win back what has been lost in bankruptcy. That process has already begun at other carriers. Without legal representation, we won't have the opportunity to press for those improvements.
