

Let's Vote Now!

Delta flight attendants are eager to vote for representation. That's why Delta AFA has asked Delta management to agree to an expedited vote under the new procedures proposed by the National Mediation Board (NMB).

In a letter to Delta CEO Richard Anderson, we point out that Delta AFA enjoys majority support among Delta flight attendants and "we are committed to negotiating with Delta executives to achieve a world-class flight attendant contract befitting the world's premier global carrier."

Majority of Voters Can Decide

If Delta agrees that it will recognize the official results of an NMB-supervised election that uses a Yes/No ballot with the majority of valid ballots cast to determine the outcome, then we will submit this representation dispute to the NMB for an election as soon as possible.

We don't want any more delays; we only want a fair vote. The NMB itself has acknowledged that its election process is flawed, which is why it is proposing new rules. But we don't have to wait for the rulemaking process to run its course over the next several months.

Let's Get Integrated!

Flight attendants are eager to resolve the outstanding representation issue and begin the process of merging the two flight attendant groups at Delta. With an expedited election under fair and democratic procedures, that goal can be achieved quickly. Come on Richard! Let's vote!

DeltaAFA Representation

Opportunity. Unity. Respect.
