

Voice.

What's more important in times like these than having a say in our work lives? Imagine the power of the voice raised in unity by 21,000 flight attendants from Delta and Northwest.

Together in the Association of Flight Attendants (AFA), we'll have more than a voice in our work lives and our future. We'll have equal standing with Delta executives in bargaining for the pay, benefits and respect our work deserves.

Protection.

With AFA representation, we can ensure that our interests get maximum consideration when decisions critical to our work lives are made, such as seniority integration and job protection. We will be at the table, and not just on some executive's spreadsheet!

Together, we can insist that Delta executives give us a firm guarantee that they won't outsource our jobs to other countries. With AFA, Northwest flight attendants protected those jobs.

Influence.

United as one strong voice for flight attendants at the world's largest carrier, we must be heard. With AFA representation, we are a force to be reckoned with at Delta, and within our industry.

It's time that flight attendants flexed our collective power, standing up for our profession and our flying rights. Together, we can.

DELTA AFA Opportunity. Unity. Respect.
