

# More Choices in Dealing with Supervisors

At Delta, we've always enjoyed being able to deal directly with our supervisors.

But now, top management is trying to frighten us into believing that we'll lose this choice if we elect to have a legally binding contract.

Nothing's further from the truth. In fact, having **a contract expands the choices we have for dealing directly with supervisors.**

## Value Added With a Contract

We can either speak with our supervisors alone, as we have in the past. Or we can choose to have an AFA representative with us. The important thing is, the choice is ours.

In short, the only thing different is that we'll have **more choices** about how we deal with our supervisors.

Why is top management trying to frighten us by misrepresenting the facts?

It's a question worth asking – especially in tough times like these when we need all the choices we can get.

**VOTE DeltaAFA Representation**

Opportunity. Unity. Respect.
