

The Expertise We Need

The Association of Flight Attendants-CWA is the world's largest association strictly dedicated to improving the pay, benefits and working conditions for flight attendants:

- It provides technical assistance from legal and benefits experts when its members bargain with airline carriers.
- It provides expert advice and support to members to ensure that the contract agreement reached with the company is honored.
- It monitors legislation that affects flight attendants and organizes lobbying visits for members with their representatives and senators.

The Democracy We Value

Through Delta AFA, our voices will be heard. We will have a chance to shape the contract through bargaining surveys, and we will have final approval through a ratification vote.

We will elect Delta AFA leaders at the domiciles where we live and work, and we are assured through AFA-CWA constitution that our leaders will be responsive to us, the membership.

The Respect We Deserve

With Delta AFA, we have the same legal standing that the pilots enjoy when they sit down to bargain with our employer. Working together, we flight attendants can advance our careers, and our profession.

VOTE DeltaAFA Representation

Opportunity. Unity. Respect.
